

RUDRAX

ARTIST BIO

Music wasn't just a hobby for DJ RudraX—it was the one place where noise turned into purpose.

He grew up surrounded by rhythm-heavy Bollywood beats and the global rise of EDM, drawn to the energy, escapism, and unity that electronic music created.

Late-night DJ set binges became an obsession: “How are these artists controlling an entire atmosphere with just sound?”

RudraX taught himself mixing, transitions, and crowd psychology, discovering that DJing is about creating moments, moments that lift people, free them, and make them feel alive.

Drawn to Peak-Time Techno and Future Rave, he shaped a signature sound: rolling basslines, sharp drops, atmospheric tension, and euphoric peaks.

RUDRAX's mission is simple:

Transform every set into a story where the crowd isn't just listening... they're living inside the music.

TECH RIDER

- Pioneer CDJ-2000NXS2 or CDJ-3000 (x2 or x3)
